

SmallRig

Rod Clamp with NATO Rail

Operating Instruction

SmallRig Rod Clamp (with NATO rail) 3011 is designed to attach 15mm rod and quick-release NATO clamp accessories. It is secured to the side or the top of a cage via a 1/4"-20 screw. It is used to attach the mini follow focus 3010B and Wireless Receiver Motor 3263. The NATO rails supports NATO Handle HTN2362, 2187B or monitor mount 2906, meet the needs of users for independent operation of integrated accessories. The NATO rail features anti-off pins to prevent accidental disconnection of camera. Rod Clamp (with NATO rail) 3011 is designed to be modular and integrated to provide a convenient and efficient shooting experience.

Safety Guidelines

1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.

Product Details

Easy to Use

Note:

1. Standard 15mm rod.
2. Comes with NATO clamp quick-release slot.

Compatibility :

1. Compatible with Standard 15mm rod;
2. Compatible with quick-release NATO clamp.

Product Dimensions: 78 x 28.8 x 20.8 mm

Package Dimensions: 105 x 95 x 30mm

Net Weight: 34g±5g

Package Weight: 68g±5g

Material: Aluminum Alloy

*Please note the import tax may occur.
