

SmallRig

Universal Magic Arm with Small Ball Head

Operating Instruction

SmallRig Universal Magic Arm with Small Ballhead 2157 is equipped with 1/4" screws at both ends. It could attach camera cage, top plate and Top Handle 1955/1984 on the one end, while attach monitor or video light on the other end. It features a wingnut in the middle to adjust the angles and positions of monitor or video light or other accessories.

Safety Guidelines

1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.
