

# SmallRig

## mini Magic Arm with Universal Ball Head

Operating Instruction

SmallRig mini Magic Arm with Universal Ball Head 3238B consists of two 1/4"-20 screw ball heads and one ball head clamp. It can be attached to the top or side of a cage on one end and to a monitor on the other. Maximum load-bearing capacity of 5kg / 11lb. Compact and portable, this mini magic arm suits for shooting with lightweight equipment. The 1/4"-20 threaded anti-scratch and anti-twist rubber pads prevent looseness due to vibration.

## Safety Guidelines

### 1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

### 2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

### 3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

### 4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

### 5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.
