Installation Steps / 安装步骤

1. **Hub Fixing:** the cold shoe clamp at the bottom can be fixed on the cold shoe mount of the device.

拓展坞固定：将拓展坞底部的冷靴夹固定在设备的冷靴口上即可固定。

2. **Hub Connection:** connect the hub to the Type-C interface of the mobile phone, connect the external power supply to the PD interface, connect the portable SSD or SSD enclosure to the USB-C 3.1 interface, and connect the microphone or earphone to the USB-C 2.0 interface. Please make sure that the external device interface corresponds to the hub interface one by one, otherwise the external device will not be available.

拓展坞连接：将拓展坞与手机的 Type-C 口连接，外接电源接入拓展坞 PD 接口，便携式 SSD 或带有 SSD 的卡盒接入 USB-C 3.1 接口，麦克风或耳机接入 USB-C 2.0 接口。请确保外接设备接口与拓展坞接口一一对应，否则外接设备将无法使用。

Note: When the SSD is connected to the mobile phone through the hub, the external power supply must be used to power the mobile phone and the SSD through the hub, because the mobile phone cannot directly drive the SSD together with the hub.

注意：外接 SSD 通过拓展坞与手机连接时，必须由外接电源通过拓展坞为手机和 SSD 供电，手机无法直接驱动 SSD 和拓展坞。
