

SmallRig

Half Case / Wrist Strap Kit for FUJIFILM X-T5

Operating Instruction

SmallRig Half Case / Wrist Strap Kit for FUJIFILM X-T5 3927 is designed to protect the camera and improve the grip experience. The vintage half case, made from hard-wearing and breathable cow leather, attaches to the camera via a 1/4"-20 thumbscrew at the bottom. It maintains full access to the flip screen, button, battery door, card slot, etc. Built-in aircraft-grade aluminum alloy frame not only fits the camera perfectly but protects it from scratches and knocks, with an aluminum alloy baseplate enhancing your grip. Besides, the bottom 1/4"-20 thread allows the case to be mounted onto the tripod directly. And the wrist strap is made from cow leather and nylon to increase comfort and reliability. A complimentary shutter button helps improve touch.

Safety Guidelines

1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.

In the Box

Guarantee Card × 1

Half Case × 1

Shutter Button × 1

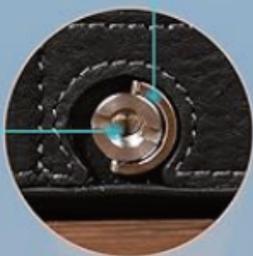

Vintage Leather Wrist Strap × 1

Available to Use Tripod

The 1/4"-20 threaded hole at the bottom enables the camera to mount onto a tripod without removing the case.
