## Universal Mobile Phone Cage

Operating Instruction

SmallRig Universal Mobile Phone Cage 2791B is a perfect cage for vlogging, live streaming, and mobile filmmaking. It works perfectly with most mobile phone models in the market and will be compatible with mobile phones in width range from 57mm to 90mm, with or without an outer case. It's a screw tighten instead of the pressure fit, which will provide a more stable clamping effect. It features four cold shoe mounts for a microphone and a LED light. Multiple 1/4 threaded holes can be used to attach a tripod, a top handle or a side handgrip. The 1/4 threaded holes in the front can be used to attach the power bank holder, which enables to clamp a power bank to the rig when a sustainable charging solution is required. It supports both horizontal shooting and vertical shooting. Inbuilt rubber pads help absorb shocks and prevent your phone from scratching. Two cable ties are attached, which can be used to sort out the messy data cord and microphone cord during shooting. It's lightweight and easy to hold.

## Safety Guidelines

### 1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

### 2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

### 3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

### 4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

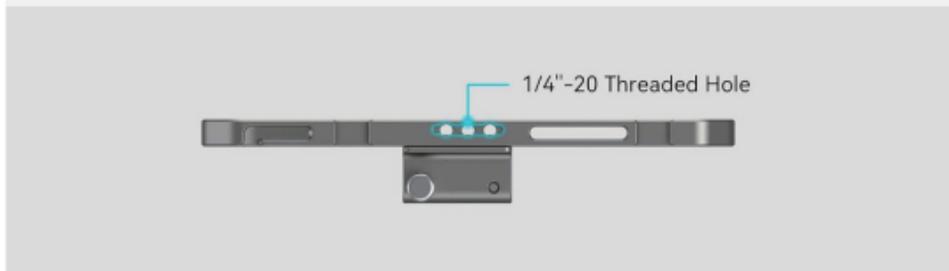

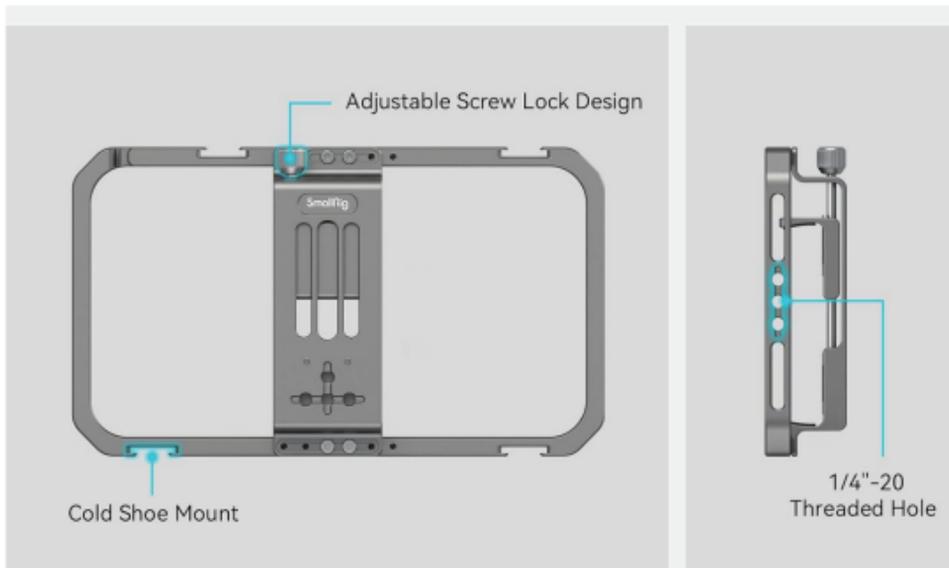

### 5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.

## In the Box

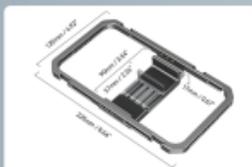

Cable tie × 2    Allen Wrench × 1    Guarantee Card × 1    Cage × 1

# Product Details

# Specifications

## Universal Stabilizer with Wide Jaws

### New Version

Compatible with most smartphone width from 57 - 90mm (2.24" - 3.54"), thickness within 17mm / 0.67 inch, which means a phone with a case or a magnetic card holder.

### Old Version

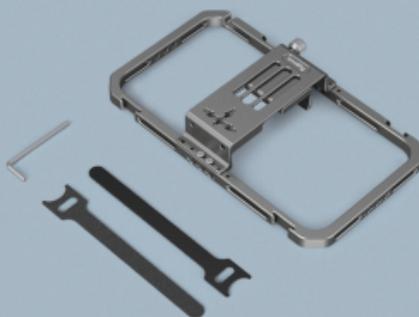

Compatible with most smartphone width from 62 - 86mm (2.5" - 3.4")

## Package Includes

Cage × 1  
Cable Tie × 2  
Allen Wrench × 1
