

SmallRig

Leather Case Kit (for FUJIFILM X100VI)

Operating Instruction

SmallRig Leather case kit for FUJIFILM X100VI 4558 is designed to protect the camera, lens, and enhance the retro feel, and quality of the camera. The kit includes a Leather Half Case, a flip case cover, and a shoulder strap. Both the external of the leather half case and flip case cover are made of breathable and wear-resistant first layer cowhide and repeat the silhouette of the camera to create an eye-catching style; the internal is made of Soft microfiber to provide All-around protection for the camera and lens. It perfectly fits the camera body and allows access to camera interfaces and buttons: battery compartment, MSC mode, card slot, etc.; The case is built-in aircraft-grade aluminum alloy for support to protect the camera from impacts. the bottom 1/4"-20 thread allows the case to be mounted onto the tripod directly without removing the case; The flip case cover features magnetic clasp and Velcro for more convenient and safety; It comes with a PU shoulder strap, easy to carry and hang camera.

Safety Guidelines

1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.
