## HawkLock H21 Quick Release Top Handle Kit

Operating Instruction

SmallRig HawkLock H21 Quick Release Top Handle Kit 4483 is designed to assist creators in capturing dynamic low-angle shots while on the move, ensuring a comfortable and stable handheld shooting experience. The top handle features an exclusive quick release slider with a patented self-locking system, while a bi-directional sliding system enables versatile mounting. The ergonomic design of the handle grip incorporates eco-friendly silicone with a textured surface for enhanced grip and comfort. Crafted from aerospace-grade aluminum alloy, the handle supports up to 15kg (33.1lbs), ensuring durability and sturdiness. The handle features 1/4"-20 threaded holes, 1/4"-20 positioning holes, an H18 quick release cold shoe mount, and an H21 quick release slider, allowing for the expansion of accessories such as monitor support (ID 4487), magic arm (ID 4488), microphone (ID 3487), LED video light, and more to meet various shooting needs. The kit also comes with a quick release slider with ARRI, allowing the handle to securely attach to both new and existing cages using ARRI locating screws. Additionally, the slider is equipped with an anti-slip magnetic locking pin to prevent accidental slipping of the kit.

## **Safety Guidelines**

### **1. Environment**

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

### **2. Load Capacity**

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

### **3. Cleaning & Maintenance**

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

### **4. Structural Integrity**

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

### **5. Malfunctions**

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.

## In the Box

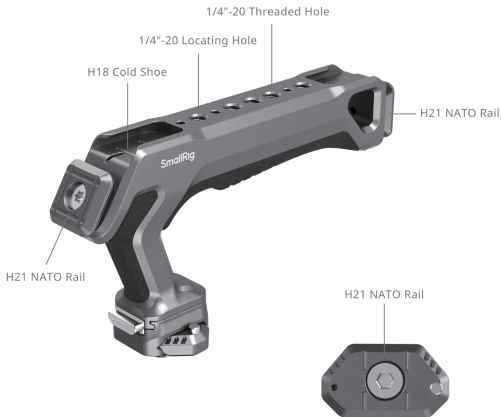

Quick Release Top Handle × 1

Allen Wrench × 1

H21 Universal Quick Release Slider (with ARRI Locking Screw) × 1

Guarantee Card × 1

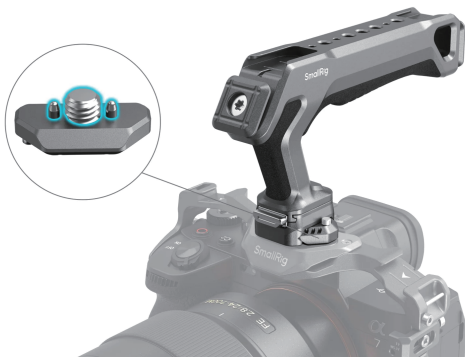

## Product Details

## Key Features:

1. Exclusive patented quick release slider design with the self-locking system ensures fast and secure installation;

Compatible cages with built-in ARRI 3/8" -16 locating hole on the top

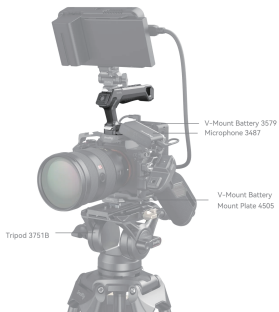

- 2. Bi-directional mounting enables flexible installation in any direction;
- 3. Textured eco-friendly silicone coating ensures a non-slip, anti-freezing grip, offering comfort and effortless handling;
- 4. Multiple built-in interfaces cater to various expansion needs, including 1/4"-20 threaded holes, 1/4"-20 locating holes, H18 quick release cold shoe mounts, and H21 quick release sliders;

5. Constructed from aerospace-grade aluminum alloy, offering a sturdy and durable build with a 15kg (33.1lbs) load-bearing capacity;

6. Features a quick release slider with ARRI, compatible with the new and old cages.

# Specifications

Product Dimensions: 141.7 x 36.0 x 79.7mm / 5.6 x 1.4 x 3.1in

Package Dimensions: 155.0 x 81.5 x 42.0mm / 6.1 x 3.2 x 1.6in

Product Weight: 182.0 ± 5.0g / 6.4 ± 0.2oz

Package Weight: 220.0 ± 5.0g / 7.8 ± 0.2oz

Material(s): Aluminum Alloy, Stainless Steel
