

SmallRig

L-Shape Mount PLate with Handle (for Sony RX100 III IV V VI VII)

Operating Instruction

SmallRig L-Shaped Wooden Grip for Sony RX100 III/IV/V(VA)/VI/VII LCS2467 is designed to provide comfort grip and accessory mounts for RX100 series users. The grip secures to the bottom of camera via a 1/4 screw and features anti-twist flanges to prevent twisting. Featuring four 1/4"-20 accessory threads on the bottom so that you can attach a tripod or tripod plate to one of the threads without obstructing the battery door. It is designed to increase the space between wooden grip and lens to ensure comfortable when holding. Besides, the bottom of the L-shaped handle comes with a slot for carry strap.

Safety Guidelines

1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.
