

SmallRig

Suction Cup Mounting Support for Action Cameras

Operating Instruction

SmallRig Suction Cup Mounting Support for Action Cameras 4347 is designed for action camera car shooting users. It is only recommended to be used on flat iron surfaces, such as iron doors, railings, kitchenware, sports equipment, etc. The special magnetic silicone all-in-one suction cup, combining magnets with a vacuum sucker, ensures safer, longer-lasting, and more stable shooting. Even in the unlikely case of silicone suction cup leakage due to severe vibration, the magnets can pull the whole mounting support to the surface of an iron car (within the load capacity of 0.35kg / 0.8lb in a dynamic shooting scene with a flat road when maximum speed does not exceed 120km/h or 74mph), effectively avoiding the risk of falling off caused by the leakage of a silicone suction cup. The package includes an all-in-one magnetic suction cup, a rotating adapter, an action camera mount, and a mobile phone clamp. The 1/4"-20 screw on one end allows attaching an action camera, LED video light, etc. It can also be used with a mobile phone clamp to attach mobile phones with a width of 56-86mm / 2.2-3.4in and a thickness of less than 9mm / 0.4in. The included action camera mount supports GoPro Cage 3084C / 3083C, Frame for Insta360 X3 4088B, and DJI Action 4 Cage 4119B. Similar products from SmallRig include 3566, 4193, and other camera mount supports.

Safety Guidelines

1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.

Product Details

2-in-1 Magnetic Suction Cup Mount

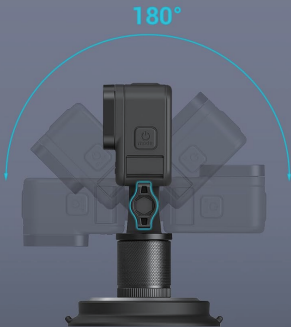

Stronger Than Ever

28.2kg

Flexible Adjustment

Shooting In Motion

Capture perspectives you've never seen before

NOTE:

Take care of the safety of the camera when using it

1. Attach a lanyard when using it on the car
2. Speed below 120km/h (74mph)
3. Check the suction force before use and every hour

Packing List

Magnetic Suction Cup × 1

Phone Clamp × 1

Action Camera Mount × 1

Parameters

Brand
SmallRig

Product Dimensions
142.0 × 80.0 × 80.0mm /
5.6 × 3.1 × 3.1in

Material(s)
Silicone,
Aluminum Alloy, ABS

ID
4347

Product Weight
188 / 6.6oz

Package Weight
238 / 8.4oz
