

# SmallRig

## **Sling Handgrip** (for Zhiyun WEEBILL-S)

Operating Instruction

SmallRig Handgrip for Zhiyun-Tech WEEBILL-S Gimbal BSS2636 is designed to add support and accessory mounts to WEEBILL LAB handheld gimbal. This ergonomic handle allows you to shoot from a variety of angles, including high- or low-angle shots. Featuring 1/4"-20, 3/8"-16, and ARRI-style accessory threads, as well as a shoe mount on one end for mounting additional accessories. The handgrip is equipped with a 1/4"-20 thumbscrew and two locating pins for a secure, anti-twist connection to your gimbal. Rubber padding on the top protects your gimbal from scratches.

## **Safety Guidelines**

### **1. Environment**

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

### **2. Load Capacity**

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

### **3. Cleaning & Maintenance**

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

### **4. Structural Integrity**

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

### **5. Malfunctions**

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.
