

SmallRig

Dual Handgrip for DJI RS 2 / RSC 2 / RS 3 / RS 3 Pro / RS 4 / RS 4 Pro

Operating Instruction

SmallRig Dual Handgrip for DJI RS 2 / RSC 2 / RS 3 / RS 3 Pro / RS 4 / RS 4 Pro 3027 is designed to reduce arm fatigue during shooting and provide rich accessories mounts. It secures to the NATO rail on each side of the gimbal, easy for detachment and time-saving. The handgrip is designed with two-side NATO rails, which is not only horizontal adjustable, but also easy for detachment and support shooting in inverted mode. Built-in multiple 1/4"-20 and ARRI 3/8"-16 threaded holes can attach Magic Arm 2115 for monitor. Cold shoe ports can be used for Monitor Mount 2905, wireless go, microphone, sound receiver, etc. It disassembles into four part for easy storage and transport.

Safety Guidelines

1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.

Product Details

Easy to Use

Designed for DJI RS 2 / RSC 2 / RS 3 / RS 3 Pro / RS 4 / RS 4 Pro gimbal.
Comes with cold shoes, 1/4"-20 and ARRI 3/8"-16 accessory mounts.
Horizontal Adjustable & Upside Down Holding.

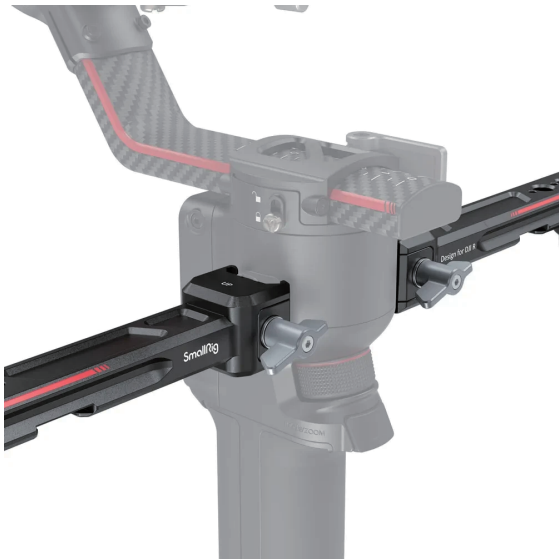

for DJI RS 3 Pro

for DJI RS 3

Dual NATO rails, quick release and attachment when shooting in inverted mode.
Anti-removal stud to secure the accessory from falling by accident.
Matte surface perfectly matches with the industrial design of stabilizer.

Specifications

Product Dimensions: 15.9 × 6.1 × 1.8in / 406.0 × 155.0 × 46.0mm

Package Dimensions: 8.4 × 4.5 × 2.6in / 215.0 × 115.0 × 65.0mm

Net Weight: 19.4±0.2oz / 551±5g

Package Weight: 23.6±0.2oz / 670g±5g

Material(s): Aluminum Alloy, Silicon
