## Cage for Sony RX100 VII / RX100 VI

Operating Instruction

SmallRig Cage for Sony RX100 VII and RX100 VI Camera CCS2434 is designed to provide protection and accessory mounts for RX100 VII/VI users. The cage secures around the lens mount via a M5 screw which maintains access to the battery door. Multiple 1/4"-20 accessory threads around the cage allows to mount a Top Handle 1984, Magic Arm 2070 for monitor and other camera related accessories. The formfitting cage features a cold shoe on the top and right side for microphone or light which makes vlogger's work much easier. Featuring a wooden handgrip and increase the space between grip and lens to ensure comfortable when holding. The bottom comes with six 1/4"-20 tripod threads which allows you to mount a tripod, a QR plate and a handle without obstructing the battery door.

## **Safety Guidelines**

### **1. Environment**

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

### **2. Load Capacity**

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

### **3. Cleaning & Maintenance**

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

### **4. Structural Integrity**

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

### **5. Malfunctions**

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.
