

# SmallRig

## Universal Power Bank Holder

Operating Instruction

SmallRig Universal Power Bank Holder 2790 is designed to attach a power bank to a camera rig, or a mobile phone rig when a sustainable charging solution is required. It will hold power banks with width range from 53mm to 81mm, which covers most power bank products in the market like Anker, RAVPower, POWERADD, etc. It comes with two 1/4 screws, which can be used to attach the holder to the desired place, and the screw tighten design ensures a more secure and stable clamping of the power bank. Inbuilt rubber pads help absorb shocks and prevent your power bank from scratching. It weighs 80g only.

## Safety Guidelines

### 1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

### 2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

### 3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

### 4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

### 5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.

## In the Box

Power bank holder	× 1	Screw	× 1
Allen wrench	× 1	Guarantee Card	× 1

Product Details

## Applicable in Various Scenarios

# Secured with Screws

Screw tightening for safe and secure clamping of the power bank.

## Specifications

**Product Dimensions:** 81.5 x 30 x 35mm

**Package Dimensions:** 85 x 75 x 24mm

**Net Weight:** 80g±5g

**Package Weight:** 95g±5g

**Material(s):** Aluminum Alloy, Stainless steel

**Cage color:** Dark Olive
