HawkLock H38 Arca-Type Quick Release Mount Plate

Operating Instruction

SmallRig HawkLock H38 Arca-Swiss Quick Release Mount Plate 4486 is designed to realize quick disassembly and dismantling of the equipment to improve the working efficiency. Self-developed quick release patented structure (named HawkLock) realizes solid and no false position, one push to load, release to lock, smooth sliding in to improve disassembly efficiency. The Arca-Swiss Clamp has several 1/4"-20 threaded holes on the bottom, which can be fixed to Manfrotto quick release plate and other accessories with two screws to prevent deflection.

Safety Guidelines

1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.
