

SmallRig

Bottom Mount Plate (for Sony Alpha 7C II / Alpha 7CR) (Silver)

Operating Instruction

SmallRig Bottom Mount Plate for Sony Alpha 7C II / Alpha 7CR (Silver) 4439 is designed to improve handgrip feeling and quickly mount onto tripod or gimbals, while protecting the bottom of the camera. Locking camera via one 1/4"-20 screw and the raised edge, the baseplate also features cushions to prevent scratches and twisting. Its hinge arm at the battery door better fits camera curve and leaves room for pinkie for more comfort. The Arca-Swiss quick release plate on the bottom supports DJI RS 2 / RSC 2 / RS 3 / RS 3 Pro gimbals as well as DJI RS 2 / RSC 2 gimbal's quick-release plate and Arca-Type Quick Release Plate 3154. At the bottom there are QD socket, compatible with QD shoulder strap, and it also reserves waist strap holes for a Hand Strap 3848. Besides, a magnetic wrench is included for easy disassembly and assembly.

Safety Guidelines

1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.
