

# SmallRig

## Tablet Mounting Clamp for iPad

Operating Instruction

SmallRig Tablet Mount for iPad 2930 is designed to make it easier to mount an iPad or tablet. It's compatible with iPad from 7.9" to 12.9" or other tablets with a similar size, with or without a protective case. Built-in rubber pads will prevent scratches on the iPad. It comes with an Arca-Swiss style base with a 1/4 threaded hole to mount/dismount a tripod quickly. It also comes with multiple 1/4"-20 threaded holes and two cold shoe mounts to attach other accessories. It's lightweight, and 184g only.

## Safety Guidelines

### 1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

### 2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

### 3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

### 4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

### 5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.
