## L-Shape Mount Plate with Handle for FUJIFILM X-M5 (Sliver)

Operating Instruction

SmallRig L-Shape Mount Plate with Silicone Handle for FUJIFILM X-M5(Silver) 4875 is designed to improve the camera grip. The L-Shape Grip mounts to the camera with a 1/4"-20 screw at the bottom, and the built-in silicone pads prevent scratches. The texture and color of the grip perfectly match with FUJIFILM X-M5. The built-in Arca-Swiss quick release baseplate allows for easy and fast Arca-type tripod assembly and disassembly. Four 1/4"-20 threaded holes at the bottom to attach Manfrotto-type plates and tripods. Strap slot for Wrist Strap (ID: 3848). The built-in flat wrench on the bottom for easy accessory assembly and disassembly. Comes with a windshield with built-in cold shoe mount, which reduces wind noise by 15dB. Built-in silicone on the bottom to prevent scratching the hot shoe. The grip comes with the exclusive hot shoe cover imprinted with the "FUJIFILM" sound wave and the year of foundation as our tribute to FUJIFILM. It also comes with a shutter release button to ensure a soft and comfortable finger touch.

## **Safety Guidelines**

### **1. Environment**

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

### **2. Load Capacity**

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

### **3. Cleaning & Maintenance**

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

### **4. Structural Integrity**

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

### **5. Malfunctions**

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.
