## Swivel and Tilt Adjustable Monitor Support with 14-20 Screws

Operating Instruction

SmallRig Swivel and Tilt Adjustable Monitor Mount with 1/4"-20 Screws Mount 2904 is designed to hold your monitor for easy monitoring. It comes with bottom 1/4"-20 screws for accessories with 1/4"-20 threaded holes (hole centre distance  $\leq 18\text{mm}$ ) and a top 1/4"-20 screw for monitor, microphone, light, etc. The mount can tilt  $180^\circ$  and swivel  $360^\circ$ . Its tilt axis is quickly tightened via a knob to suit different weight and features tested durability, with tilt load capacity decreased by no more than 20% after 10,000 tilts, while its pan axis is  $360^\circ$  adjustable via an Allen wrench. Bouncy locating pins on the top help secure Ninja V/ V+; and 1/4"-20 threaded holes at the bottom allow attaching Magic Arm 2070, etc. The thumbscrews have holes for Allen wrench to facilitate assembly and disassembly.

## Safety Guidelines

### 1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

### 2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

### 3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

### 4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

### 5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.
