

# SmallRig

## RA-S200 Light Stand

Operating Instruction

SmallRig RA-S200 Light Stand is lightweight and portable. Its 1/4" threaded hole supports flashlight, ring light, panel light, microphone, low-watt COB light and other accessories. 56-200cm adjustable height and 56cm folded length add to its compactness. Mainly made of aluminum alloy, this item features 20mm-thick feet, strong enough to bear as much as 4kg. It also comes with a storage bag and a metal ball head, suitable for different shooting scenarios.

## Safety Guidelines

### 1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

### 2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

### 3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

### 4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

### 5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.

## In the Box

Light Stand	× 1	Ball Head	× 1
Guarantee Card	× 1		

# Product Details

**1/4\"-20 Adapter**  
Reliable stainless steel material

**Flip Locks**  
Quicker and tighter
