

SmallRig

Universal Top Handle Compatible
(with ARRI Locating Holes)

Operating Instruction

SmallRig Universal ARRI Locating Handle 2165C is an all-in-one and half handle, with simple and ergonomically design to offer a comfortable handheld shooting experience. ARRI-type mounts allow for quick assembly and disassembly; locating pins enable horizontal and vertical attachment while securing the camera. Featuring an all-in-one and half structure, it comes with multiple 1/4"-20 & 3/8"-16 & ARRI 3/8"-16 accessory threads and three cold shoe mounts for monitors, LED lights or microphones and a built-in spanner for easy access. The cold shoe mount on the front end of the handle is designed to prevent accidental disconnection. Overall, the lightweight and practical handle can provide a wide range of mounting points and an excellent shooting experience.

Safety Guidelines

1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.
