

SmallRig

Full Cage

(for Sony Alpha 7R V / Alpha 7 IV /
Alpha 7S III / Alpha 1 / Alpha 7R IV)

Operating Instruction

SmallRig Full Cage for Sony Alpha 7R V / Alpha 7 IV / Alpha 7S III / Alpha 1 / Alpha 7R IV 3667B is designed to provide accessory mounts and protect camera. It lock camera via one bottom locating pin, one 1/4"-20 screw and the one M2.5 screw on the left side. The side lock adapters need to be adjusted the installation direction for fitting different camera types, printed with "A7 IV" is for Alpha 7 IV and Alpha 7R V while printed with "A7S III/A1" is for Alpha 7S III / Alpha 1 / Alpha 7R IV. Built-in all-round protective spacers prevent the camera from being scratched. The cage gives access to interfaces, dials, buttons or battery door. There is a spindle spanner at the battery compartment which fits camera curve and leave room for little finger for comfortable grip. 1/4"-20 threaded holes, ARRI 3/8" -16 locating holes and cold shoe mounts support top handle 2165C, side handle 2093, monitor mount 2903, microphones, LED lights, monitors, etc. Bottom OD socket support QD shoulder strap. Arca-Swiss quick release plate at the bottom is compatible with DJI RS 2 / RSC 2 / RS 3 / RS 3 Pro, the quick release plate (riser plate) of DJI RS 2/RSC 2 stabilizer for stabilizer shooting, and Arca-Swiss quick release plate 3154. Optional HDMI Cable Clamp 3000 works with Alpha 7R V / Alpha 7 IV / Alpha 7S III to protect interfaces and ensure stable signal transmission during filming. Holes on the sides and bottom of the cage allow attaching such accessories as hand strap PAC2456 and shoulder strap PSC2428. Besides, the cage comes with a built-in magnetic spanner that facilitate disassembly and assembly.

Safety Guidelines

1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

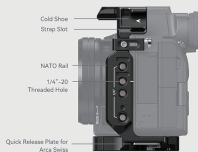

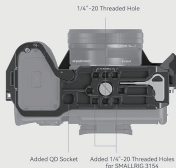

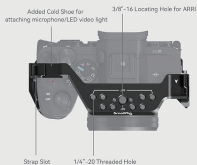

5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.

Product Details

Note: After fixing the bottom 1/4"-20 screw, please take out the anti-deflection beside the battery compartment from the temporary storage hole and fix it to the corresponding position.

All-round Protection

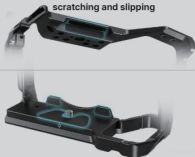

**Rugged and durable,
made of aircraft aluminum alloy**

**Can be securely fastened
Prevents deflection**

**Built-in rubber pads prevent
scratching and slipping**

**Hinge arm for battery
replacement**

**Reserved space for
battery cable**
