

## Sling Handle

for DJI RS 2 / RSC 2 / RS 3 / RS 3 Pro /  
RS 3 Mini / RS 4 / RS 4 Pro / RS 4 Mini  
(BumbleBee Edition)

Operating Instruction

Sling Handle for DJI RS 2 / RSC 2 / RS 3 / RS 3 Pro / RS 3 Mini / RS 4 / RS 4 Pro / RS 4 Mini (ID 5524) is designed to reduce arm fatigue during low-angle shooting and offers plentiful accessory mounting options. Equipped with a NATO rail for connection and features a locating pin to ensure safe and quick operation. Multiple 1/4"-20 threaded holes and ARRI 3/8"-16 location holes are built-in on the handle which allows for mounting magic arm (ID 2115) and monitor mount (ID 2903). With two cold shoe mounts on top and side of the handle, it can be mounted with wireless GO and a sound receiver. Side NATO rail can attach the monitor mount (ID 3026B). The handle's angle can be adjusted to 180° via a ratchet knob and can be used as a side handle to meet the needs of different shooting scenarios. Ergonomically-designed & curved grip with anti-slip silicone gives you more comfort while holding it. Its sleek design and compact structure match perfectly with the stabilizer.

## Safety Guidelines

### 1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

### 2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

### 3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

### 4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

### 5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.
