

SmallRig

**Swivel and Tilt Adjustable Monitor Support
with 14-20 Screws**

Operating Instruction

SmallRig Swivel and Tilt Adjustable Monitor Support with 1/4"-20 Screws 4886 is designed to provide extra extension options facilitating the monitor usage. The monitor support is equipped with dual 1/4"-20 retractable pins, offering compatibility with Ninja V and V+ monitors, thereby ensuring stability to prevent deviation and ensure equipment safety.

This monitor support supports a 180° tilt adjustment, allowing for quick tightening or loosening of the tilt axis with a knob to better accommodate devices of varying weights, ensuring durability. It also offers a 360° horizontal adjustment by tightening or loosening the horizontal axis with the Allen wrench. Wrench reinforcement holes on both thumbscrews facilitate easy assembly and disassembly.

Additionally, this monitor support is compatible with the cage for DJI Osmo Action 4 / 3 (ID 4119B) and other accessories for versatile use.

Safety Guidelines

1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.

Product Details Display

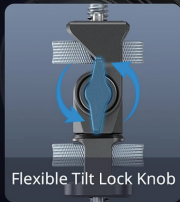

Swivels 360° & Tilts 180°

This monitor mount can be quickly adjusted for the tightness of the pitch and horizontal axes using a knob and allen wrench

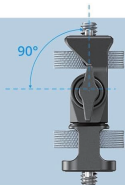

User Experience-focused Design

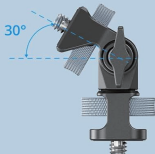

Better Load-Bearing

90° load capacity < **7.05lb**

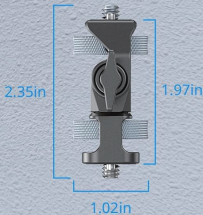

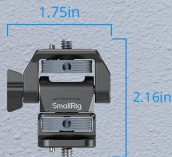

45° load capacity < **5.51lb**

30° load capacity < **5.07lb**

Lightweight and Portable

It weights only 61.0g / 2.15oz, making it easy to carry and reducing the burden of shooting
