

SmallRig

Support Adapter for DJI Osmo Action 5 Pro 4 3

Operating Instruction

SmallRig Magnetic Adapter for DJI Osmo Action 3662B is designed to enhance the versatility of DJI Osmo Action 3 / 4 / 5 Pro cameras. Crafted from aluminum alloy, it features internal magnets, a 1/4"-20 threaded hole at the bottom, and a foldable dual claw interface for attaching action camera accessories. This adapter allows for the attachment of the camera or a cage to tripods, selfie sticks (4758), suction cup mounts (3566), handlebar mounting clamps (4191), and other compatible products.

Safety Guidelines

1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.
