

# SmallRig

## Rotatable NATO Side Handle (Left)

Operating Instruction

SmallRig Rotating NATO Handle (Left Side) 3260 is designed for easy adjustment of camera shooting angle. Ergonomically designed with a comfortable silicone surface texture, the handle is anti-slip and sweat-proof. It can be quickly mounted onto the side of the cage via a NATO clamp. Under the condition that some cages do not have a NATO rail interface, it can be expanded through BUN2468 to meet the needs of users to be compatible with different cages. For different filming angles, you can press the unlock button on the side for easy 360-degree rotation and release it for automatic locking. The handle comes with 1/4"-20 & 3/8"-16 threaded holes and a cold shoe for easy attachment of accessories; it works with Hand Strap PAC2456, providing more options to further enhance the user's grip comfort.

## Safety Guidelines

### 1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

### 2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

### 3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

### 4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

### 5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.

## In the Box

Rotating NATO Handle (left)	× 1	NATO rail	× 1
Hex Spanner	× 1	Guarantee Card	× 1

# Product Details

Multiple threaded holes for more accessory mounting accessories

## Ergonomic Comfortable Grip

Silicone gasket has 4 finger textures for comfortable, ergonomic grip.

## Built-in tool and anti-lost design

# Specifications

**Product Dimensions:** 4.4 × 2.5 × 3.0in / 112.0 × 64.5 × 77.3mm

**Package Dimensions:** 4.9 × 4.3 × 3.4in / 125.0 × 110.0 × 87.0mm

**Net Weight:** 10.9 ± 0.2oz / 310.0 ± 5.0g

**Package Weight:** 13.5 ± 0.2oz / 385g ± 5g

**Material:** AL6061 + Silicone
