## Quick-Lock Photography Heavy Duty Tripod Dolly

Operating Instruction

SmallRig Quick-Lock Photography Heavy Duty Tripod Dolly 5020 is a universal dolly designed for effortless maneuvering heavy duty tripods. With a load capacity of up to 20kg (44.1lb), it is compatible with tripods with an extension range from 280 to 450mm (11 to 17.7in). The newly designed quick-lock buckle ensures swift and secure tripod locking. Featuring 3-inch soft rubber wheels and a dual pedal design, bending down is no longer necessary - a simple step on the pedal switch effortlessly unlocks the dolly.

Moreover, this dolly minimizes noise while in motion, ensuring uninterrupted shooting.

## **Safety Guidelines**

### **1. Environment**

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

### **2. Load Capacity**

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

### **3. Cleaning & Maintenance**

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

### **4. Structural Integrity**

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

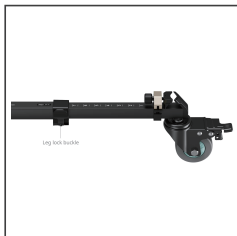

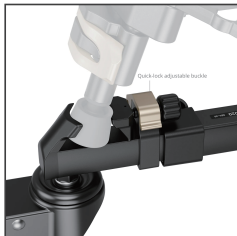

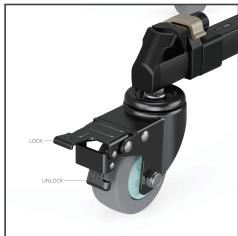

### **5. Malfunctions**

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.

## **In the Box**

Guarantee Card	× 1	Tripod Dolly	× 1	Storage Bag	× 1
Allen Wrench	× 1
