

SmallRig

Crab-Shaped Clamp Kit

Operating Instruction

SmallRig Crab-Shaped Clamp Kit 5318 is crafted from durable aluminum alloy, ensuring robustness and longevity. Its detachable wedge design enhances grip on flat surfaces and cylindrical objects, providing stable support for your equipment.

Equipped with a 1/4"-20 and 3/8"-16 top screw, as well as 1/4"-20 and M5 threaded holes, it supports a load capacity of 15kg (33.1lb) and allows for accessory expansion with SmallRig magic arms (ID 3873, 4899, 4900 and more). When using without the wedge block, it can securely grip round tubes with diameters ranging from 10mm to 55mm (0.4in to 2.2in). With the wedge block, it can clamp flat surfaces up to 30mm (1.2in) thick. Its high adaptability allows for quick attachment of cameras, microphones, monitors, video lights, and other equipment to round tubes, tables, tripod legs, and stabilizer handheld rings.

The clamp jaws feature built-in pads to protect clamped objects and enhance grip stability.

Safety Guidelines

1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.

In the Box

Super Clamp × 1

Guarantee Card × 1

1/4"-20 to 3/8"-16
Threaded Adapter × 1

Product Details

Key Features

1. With a high load capacity of 15kg (33.1lb), it can support most equipment
2. Equipped with a 1/4"-20 & 3/8"-16 top screw, it allows for versatile attachment of devices such as video lights and cameras
3. Detachable wedge block ensures secure clamping of flat surfaces and cylindrical objects, providing stable support for equipment and enhancing shooting safety

Compatibility

1. When clamping cylindrical objects, remove the detachable wedge block; suitable for cylindrical objects with diameters ranging from 10mm to 55mm (0.4in to 2.2in)
2. When clamping flat surfaces, install the wedge block; the maximum clamping thickness is 30mm (1.2in)
3. Not recommended for flat surfaces exceeding 30mm (1.2in) in thickness
(For accuracy, please refer to the actual data.)

Specifications

Product Dimensions: 200.0 x 146.0 x 44.0mm / 7.8 x 5.7 x 1.7in

Package Dimensions: 278.0 x 175.0 x 67.0mm / 10.9 x 6.9 x 2.6in

Product Weight: 1120.0 ± 5.0g / 39.5 ± 0.2oz

Package Weight: 1327.0 ± 5.0g / 46.8 ± 0.2oz

Material(s): Aluminum Alloy
