

# SmallRig

**L-Bracket** (for Sony Alpha  
7R V / Alpha 7 IV / Alpha 7S III /  
Alpha 1 / Alpha 7R IV / Alpha 9 II)

Operating Instruction

SmallRig L-Bracket for Sony Alpha 7R V / Alpha 7 IV / Alpha 7S III / Alpha 1 / Alpha 7R IV / Alpha 9 II 3660 is designed to facilitate a switch between horizontal and vertical modes and to improve grip experience. It locks the camera via one 1/4"-20 screw at the bottom and one locating pin, with rub pads preventing scratches, and has a hinge arm at the battery door that fits the camera curve to enhance grip. Embedded select genuine leather in the baseplate integrates into camera body. Baseplate built-in Arca Swiss quick-release plate at the bottom, compatible with Arca-type tripods or DJI RS 2 / RSC 2 / RS 3 / RS 3 Pro gimbals; Multiple 1/4"-20 threaded holes at the bottom support quick release plates, tripods; Built-in wrist strap hole for use with Hand Strap 3848, also features a QD mount to attach the QD strap buckle, and a built-in flat-head screwdriver & hex spanner for easy installation and removal. Arca-Swiss quick-release side plate for quick switch between horizontal and vertical modes on tripod, as well as a 25mm stretchable side plate that allows cables through in vertical shooting; The side plate is extendable to allow attaching HDMI cables and adjusted back and forth to facilitate 180-degree opening and 120-degree rotation of the LCD screen of Alpha 7 IV / Alpha 7S III.

## **Safety Guidelines**

### **1. Environment**

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

### **2. Load Capacity**

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

### **3. Cleaning & Maintenance**

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

### **4. Structural Integrity**

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

### **5. Malfunctions**

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.
