Magic Arm Magnetic Suction Cup Mounting Support Kit for Action Cameras

Operating Instruction

SmallRig Magic Arm Magnetic Suction Cup Mounting Support Kit for Action Cameras 4466 is designed to shoot car scenes using an action camera. It is only recommended to be used on flat iron surfaces, such as iron doors, railings, kitchenware, sports equipment, etc. The exclusive dual-material design combines magnets with a vacuum sucker, ensuring safer, longer-lasting, and more stable shooting. Even in the unlikely case of silicone suction cup leakage due to severe vibration, the magnets can pull the whole mounting support to the surface of an iron car (within the load capacity of 0.35kg / 0.8lb in a dynamic shooting scene with a flat road when maximum speed does not exceed 120km/h or 74mph), effectively avoiding the risk of falling off caused by the leakage of a silicone suction cup. The kit includes a magic arm, a magnetic suction cup, and an action camera mount. The 1/4"-20 screw on one end allows attaching an action camera, LED video light, etc. The included action camera mount supports GoPro Cage 3084C / 3083C, Frame for Insta360 X3 4088B, and DJI Action 4 Cage 4119B. Similar products from SmallRig include 3566, 4193, and other camera mount supports.

Safety Guidelines

1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.

In the Box

Magnetic Suction Cup	× 1	Action Camera Mount	× 1
Magic Arm	× 1		

Strong Magnetic Mount

- 6 Magnets
- With 1 Suction cup Base as Assistance

Please note:

Only be used on iron or other magnetic flat surfaces
