

SmallRig

Video Head Mount Plate (for Vertical Shooting)

Operating Instruction

SmallRig Video Head for Vertical Shooting 4104 is specially designed for video shooting. It enables a quick switch between horizontal and vertical shooting and the mounting direction of the quick release plate, supporting cage, and L-bracket. Compact and portable, the fluid head weighs only 550g but bears as much as 5kg. It also comes with a removable telescopic handle, which is easy to store and allows the head to swivel 360° and tilt +90°/-90° steadily.

Safety Guidelines

1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.

Product Details

Key Features

1. Quick switch between horizontal and vertical shooting;
2. Quick switch of the mounting direction of the quick release plate;
3. Compact, high load-bearing capacity;
4. Telescopic handle for easy storage;

Note:

1. Not sand-resistant or dust-resistant;
2. Max payload: 5kg;
3. Base diameter: 45mm;
4. Telescopic handle: 112mm to 230mm long;

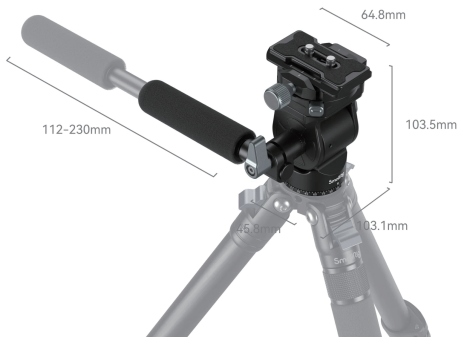

Compatibility:

Arca-Swiss Quick Release Plate

Specifications

Product Dimensions: 64.8 x 103.1 x 103.5mm

Package Dimensions: 180 x 129.5 x 75mm

Product Weight: 550.0 ± 5.0g

Package Weight: 630.0 ± 5.0g

Material(s): Aluminum Alloy, POM, Stainless Steel, Silicone
