

SmallRig

L-Shape Mount Plate with Handle for Nikon Z fc (Black)

Operating Instruction

SmallRig L-Shape Grip for Nikon Z fc (Black) 4263 is designed to provide a comfort grip. The retro-style grip shares similar texture and color with the camera; the baseplate shares the same color surface treatment with the camera and fits perfectly. The L grip secures to the camera via a 1/4"-20 D-ring screw on the bottom and comes with a built-in 1/4"-20 threaded hole on the grip that enables vertical shooting on a tripod. The baseplate features a built-in Arca Swiss plate to quickly switch to tripod shooting, and a 1/4"-20 threaded hole at the center that supports tripod or Manfrotto quick release plate. In addition, the baseplate features a built-in cold shoe allows attaching microphone, light and other accessories; the plate also comes with a slot for wrist strap. The grip adopts compact and lightweight design, which is easy to carry around.

Safety Guidelines

1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.
