

SmallRig

HawkLock H21 Universal Quick Release Mount Plate Kit

Operating Instruction

SmallRig HawkLock H21 Universal Quick Release Mount Plate Kit 4491 consists of a top quick release plate and a base. Press the button to flare the pins, slide the rail into the groove, and lock it by releasing the button. The precise measurements ensure the perfect fit and stability and prevent accidental falling off. The mount plate kit can hold up to 5kg / 11lb. The quick release plate supports any equipment with 1/4"-20 threads, such as lightweight mirrorless cameras, monitors, action cameras, etc. Besides, it has two optional locating pins, which can effectively prevent the device from deflecting when used with SmallRig action camera cages (e.g.: 4119B, 3084C, and 4088B). The baseplate features a 1/4"-20 threaded hole and locating hole to attach any equipment with a 1/4"-20 screw, e.g.: mini Ball-Head Mounting Support Kit 2948B, mini Tripod BUT2429, 3905, etc., as well as accessories with locating pins, including Magic Arm 3873, 3874, 3875, 3959, and 4194.

Safety Guidelines

1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.

In the Box

Quick Release NATO Rail × 1

Allen Wrench × 1

Quick Release NATO Clamp × 1

Guarantee Card × 1

Product Details

Easy to Use

Exclusive QR-Slide patented structure for NATO clamp with suspended pins that lock the rail after sliding into a groove, making the kit stable and anti-deflection;

The mount plate kit can hold up to 5kg / 11lb, ensuring a safe shooting experience;

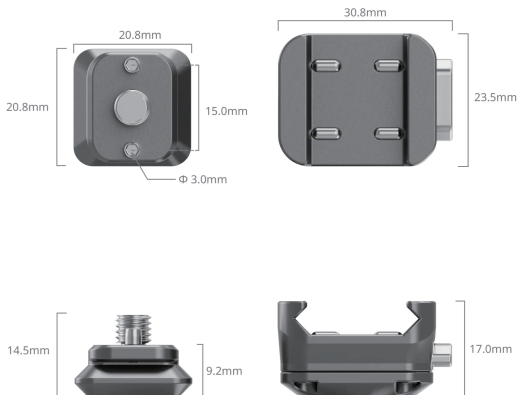

Press the button and slide in the NATO rail in either direction and release the button to lock the rail, enabling effortless and time-saving assembly;

Versatile and highly compatible mounting solution; both the top and base plates are equipped with an anti-deflection design (pins/holes) to ensure safety and stability.

Specifications

Product Dimensions: 1.2 × 0.9 × 1.1in / 30.8 × 23.5 × 26.5mm

Package Dimensions: 2.5 × 2.1 × 1.6in / 64.0 × 52.5 × 41.0mm

Product Weight: 1.3 ± 0.2oz / 39.0 ± 5.0g

Package Weight: 1.8 ± 0.2oz / 51.0 ± 5.0g

Material(s): Aluminum Alloy, Stainless Steel

Manufacturer Email: support@smallrig.com

Manufacturer: Shenzhen Leqi Innovation Co., Ltd.

Add: Rooms 101, 701, 901, Building 4, Gonglianfuji Innovation Park, No. 58, Ping'an Road,
Dafu Community, Guanlan Street, Longhua District, Shenzhen, Guangdong, China.

Consignor: Shenzhen LC Co., Ltd.
