

SmallRig

■ Black

L-Shape Handle (for FUJIFILM X-T5)

Operating Instruction

SmallRig L-Shape Grip for FUJIFILM X-T5 (Black) 4260 is designed to improve your grip on the camera. With the same texture and color, it matches FUJIFILM X-T5 perfectly. The grip easily locks the camera via a mere 1/4"-20 D-ring thumbscrew at the bottom, where multiple accessory mounts are included too. They include an Arca-Swiss quick-release plate for Arca-Swiss tripods, three 1/4"-20 holes for tripods or Manfrotto-type plates, and a strap slot for Hand Strap 3848. The grip features a slim and compact baseplate that weighs only 79g. It also comes with a shutter button to enhance touch..

Safety Guidelines

1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

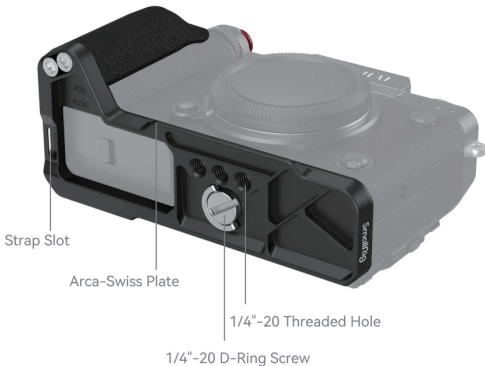

5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.
