

SmallRig

Adjustable Monitor Support

for DJI RS / SC, Zhiyun CRANE 3 / 3S / WEEBILL-S /

WEEBILL-LAB and Moza AirCross2

Operating Instruction

SmallRig Adjustable Monitor Mount for DJI RONIN-S/RONIN-SC & ZHIYUN CRANE 3 / CRANE 3S / WEEBILL-S & MOZA AirCross2 Gimbals 2889 is designed to hold monitor or accessory onto the handheld stabilizers. The mount attaches to the mounting threads of the ZHIYUN CRANE 3, CRANE 3S, WEEBILL-S, or WEEBILL LAB with a built-in thumbscrew, and a rosette adapter plate is included to attach the mount to the DJI Ronin-S or Ronin-SC with two included M4 screws. Featuring three 1/4"-20 threads for additional accessories such as Cold Shoe 1241 for microphone or sound receiver. The monitor bracket features 360° tilt and can hold a monitor rig up to 2.2 lb. The robust mount features rubber pad to protect your monitor from scratching. Each thumbscrew features slots for Allen wrench to tighten the mounting screws.

Safety Guidelines

1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.
