

SmallRig

"Black Mamba" Cage for Canon EOS R7

Operating Instruction

SmallRig "Black Mamba" Cage for Canon EOS R7 4003B is designed to provide protection and multiple accessory mounting points. Locking the camera via one 1/4"-20 screw at the bottom and one side lock adapter on both sides, this cage features silicone cushions that prevent scratching and "Black Mamba" style as a whole that gives full access to all controls of the camera. It also comes with 1/4"-20 threaded holes and ARRI 3/8"-16 locating holes for Side Handle 2093 and 3814, Top Handle 3786 and 3765, Magic Arm 2070, Monitor Mount 2903, Holder for Portable Power Banks 2336, Rod Clamp 3598, etc.; Cold shoe mounts for attaching the microphone and LED light; NATO rails for Side Handle 3260 and 3813; and strap slots for Hand Strap 3848 and Camera Shoulder Strap PSC2428. Arca-Swiss quick release plate at the bottom supports DJI RS 2 / RSC 2 / RS 3 / RS 3 Pro stabilizer and Arca-Swiss tripod to allow quick switch among handheld, stabilizer, and tripod shooting scenes. The built-in QD socket on the bottom is available to attach the quick disconnect strap system. In addition, a double-ended wrench is included for easy disassembly.

Safety Guidelines

1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

5. Malfunctions

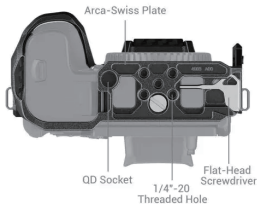

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.
