► Introduction

Established in 2013, SmallRig specializes in designing and creating comprehensive ecosystems for content creators. The company is dedicated to providing solutions for camera and mobile device support and expansion, lighting control, powering, and more. With a focus on versatility, compatibility, and fast and efficient manufacturing, SmallRig has built a strong reputation for delivering high-quality accessory solutions to over 4 million creators worldwide.

SmallRig has introduced the User Co-Design (UCD) and DreamRig Program, which allows global creators to collaborate and customize products. Through partnerships with industry peers and users, SmallRig aims to empower creators and expand the boundaries of visual content creation.
