

SmallRig

Mini Matte Box Lite

Operating Instruction

SmallRig Mini Matte Box Lite 3575 is designed for DSLRs and mirrorless cameras to prevent sunlight or other light from causing glare and flare and to control images on the screen. Its clamp connector works with adapter rings of various sizes (Φ52-95mm; Φ55-95mm; Φ58-95mm; Φ62-95mm; Φ67-95mm; Φ72-95mm; Φ77-95mm; Φ82-95mm; Φ86-95mm) or attached directly to Φ95mm lens; its adapter ring fits CPL, ND filter and other circular filters of up to Φ92.5mm. Using filter tray (ID: 3319/3320) can quickly install with 4 x 5.65"/4 x 4" plug-in filters of 4mm in thickness. Easy-to-store filter tray (ID: 3319/3320), which can be quickly mounted onto the matte box via a NATO clamp, supports multiple 4 x 5.65"/4 x 4" plug-in filters of 4mm in thickness at the same time, protects filters from accidental drops and prevents scratches and fingerprints while replacing plug-in filters. The adjustable carbon-fiber top flag blocks sunlight or strong light and also prevents internal reflections with its anti-reflective design.

Safety Guidelines

1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

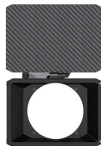

5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.

Description

Beat Strong Sunlight with the Matte Box.

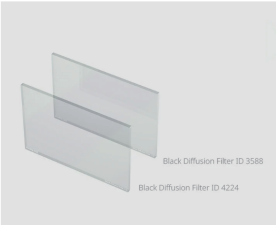

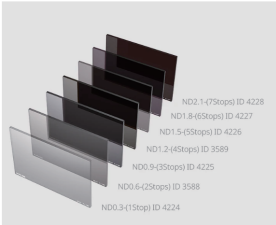

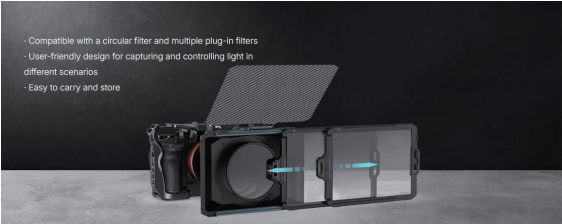

The matte box is an irreplaceable tool to help provide a better viewing experience under harsh light conditions.

Lightweight and Compact Design

- The body is made of carbon fiber with threaded design.
 - The inner surface has a matte finish.
 - Effectively block unwanted glare and lens flare.
- *Weight only at 108g

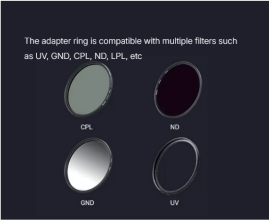

Expands the Stacking Capabilities of Filters

*Note: Filters are sold separately

Avoid Vignetting Capture the Full Picture

Camera used in shooting

Full-frame Canon EOS R5 8K 30P, full-frame Canon RF15-35mm F2.8 L IS USM

Accessories used in shooting

Adapter ring (Φ82-95mm)

4 x 5.65" rectangular filter

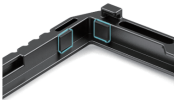

15mm Focal length

Frame Structure with Shockproof Design

Dedicated Filter Frame

Multi-point protection

No fingerprints

Guide

Mount Matte Box

1. Find adapter for your lens

2. Screw the adapter to lens

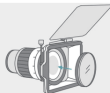

3. Mount them on matte box

1. Screw the adapter to lens

2. Mount them on matte box

3. Mount the filter to adapter

1. Remove the filter tray

2. Insert the filter into the tray

3. Insert them into matte box

Specifications

Product Dimensions: 6.9 × 5.3 × 1.8mm / 176 × 134 × 46.5mm

Package Dimensions: 8.1 × 5.7 × 2.8mm / 205 × 145 × 72mm

Package Weight: 3.8 ± 0.2oz / 108.0g ± 5.0g
(no adapter ring and filter tray)

Package Weight: 8.4 ± 0.2oz / 238.0 ± 5.0g

Material: AL6061 + PC + Carbon Fiber

Note:

1. Not 100mm rectangular filters compatible.
2. Adapter rings kit (Φ52/55/58/62/86-95mm) 3383 is separately available
3. Max load capacity: 1kg.

Compatibility:

1. Standard Φ52/55/58/62/67/72/77/82/86mm lens
2. Circular filters with an outer diameter up to Φ92.5mm
3. Compatible with Φ152/55/58/62/67/72/77/82/86-95mm adapter rings
4. 4 x 5.65"/4 x 4" plug-in filters of 4mm in thickness.
