

SmallRig

Cage (for DJI Osmo Pocket 3)

Operating Instruction

SmallRig Cage for DJI Osmo Pocket 3 5072 is a versatile cage tailored for DJI Osmo Pocket 3. Weighing only 52g (1.8oz), it supports lightweight and effortless operation. The cage features a quick release flip lock for fast tool-free installation, while its rear features a foldable GoPro mounting interface that can seamlessly attach to the original GoPro base. At the front of the cage, a magnetic quick release interface compatible with the original adapter of the Action series enables instant mounting and smooth shooting. A side cold shoe mount allows for attaching accessories like the DJI Mic 2 and LED video lights. Additionally, anti-twist 1/4"-20 threaded holes on both sides ensure a stable connection. For added security and convenience, the cage comes with a wrist strap.

Safety Guidelines

1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.
