Foldable Multi-Tool Kit (BumbleBee Edition)

Operating Instruction

SmallRig Foldable Multi-Tool Kit (ID 5517) is a compact folding multi-functional tool set designed for video photographers. Compact and portable, this tool set effectively prevents the loss of small wrenches and screwdrivers. It consists of wrenches and screwdrivers made of stainless steel, and side plates made of robust aluminum alloy. Includes 4 Allen wrenches (2.5mm, 3mm, 4mm, 3/16"), 1 flat-head screwdriver, 1 Phillips screwdriver, and 1 Torx T25 driver, sufficient for meeting need of most shooting scenarios. Besides, there are additional M2.5, M3, M4, M5, and 1/4" threaded holes on one side for storing spare screws.

Safety Guidelines

1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.
