

SmallRig

Super Clamp with 360° Ball Head Mount (for Action Cameras)

Operating Instruction

SmallRig Super Clamp with 360° Ball Head Mount for Action Cameras 4102B is made of aircraft-grade aluminum alloy and stainless steel, CNC process anodized and carved to increase sturdiness and durability. It features skeletal design and shark clamp with stronger clamping force as well as widely compatible 1/4"-20 threaded holes, 3/8"-16 threaded holes and ARRI 3/8"-16 locating holes. The clamp, which supports rod of a minimum diameter of 14mm and surface with a maximum thickness of 65mm, can quickly attach cameras, monitors, LED video lights, etc. to round pipes, tables, handlebars, tripods and stabilizer handheld rings. Anti-slip threads help ball head lock easily and one-piece connection secures ball head mount to the clamp to prevent disconnection. In addition, built-in cushions provide protection and clamping stability. This item also includes a removable action camera adapter, with a special holder and a long rod screw to work with GoPro Hero 11 / 10 / 9 Black Camera Cage 3084C or Camera Cage for DJI Osmo Action 3 4119.

Safety Guidelines

1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.

Product Details

Key Features

1. Made of aircraft-grade aluminum alloy and stainless steel, strong and durable;
2. Load capacity<3.5 kg, fits most photographic accessories;
3. Includes an action camera adapter to support GoPro in various scenes;
4. Wide compatibility: 1/4"-20 threaded holes, 3/8"-16 threaded holes and ARRI 3/8"-16 locating holes;
5. Clamping range of 14mm-65mm, with built-in anti-slip pads ensuring safety and stability.

Anti-Slip Hinge Design

All-in-One Connection

Built-in Anti-Slip Pads

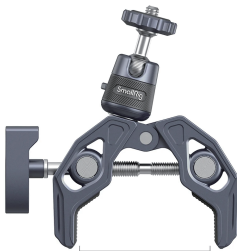

Note:

1. Please do not disassemble the original set screw, otherwise it may lead to deflection of the original ball head.
2. Please do not disassemble the original set screw to replace the original ball head, otherwise it may lead to thread failure.

Min: $\Phi 14.0$ mm

Max: 65mm

Compatibility:

Rod 14mm-60mm in diameter / Surface up to 65mm thick

Specifications

Product Dimensions: 98 x 22.8 x 142.2mm

Package Dimensions: 136 x 102.5 x 51mm

Product Weight: 158g±5g

Package Weight: 200g±5g

Material(s): Aluminum Alloy, Stainless Steel, Silicone
