

# SmallRig

## Mounting Clamp for Portable Power Banks

Operating Instruction

SmallRig Holder for Portable Power Banks BUB2336 is designed to attach a power bank to the camera rig when a sustainable charging solution is required. It holds power banks with width ranging from 53mm to 85mm, which covers most products in the market. On the top, bottom and back of the holder are 1/4"-20 threaded holes, which makes it convenient to attach the holder to different places. For example, you can mount it to the front of the SmallRig Top Handle 1638, SmallRig Dual Rod Clamp 942, SmallRig BallHead Arm 2070 or SmallRig cages. The holder features soft protective rubber pads inside, keeping the power bank securely in the clamp and preventing scratches.

## Safety Guidelines

### 1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

### 2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

### 3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

### 4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

### 5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.

## Compatible with Power Bank 53 to 85 mm wide

Lightweight Design Weighs only 105g

# Specifications

## Compatibility:

1. Portable chargers with a width range of 53mm-85mm.
2. Anker: PowerCore 20100 mAh, PowerCore 10,000 mAh, PowerCore 13,000 mAh, PowerCore Slim 5,000 mAh, PowerCore 26,800 mAh, PowerCore Speed 20,000 mAh, etc.
3. RAVPower, X-torm, and other brands.

## Parameters:

Product Dimensions: 72x 35 x 34mm

Package Dimensions: 120 x 100 x 40mm

Net Weight: 105g

Package Weight: 135g

Material(s): Aluminum Alloy
