

SmallRig

Magic Arm with Crab-Shaped Clamp for Action Cameras

Operating Instruction

SmallRig Magic Arm with Crab-Shaped Clamp for Action Cameras 5605 consists of an integrated magic arm with a crab-shaped clamp, and an action camera mount. One end features a 1/4"-20 screw that pairs seamlessly with the action camera mount, ensuring compatibility with GoPro HERO, DJI OSMO, and Insta360 ACE action cameras. Alternatively, the 1/4"-20 screw can directly attach accessories such as monitors, lights, or microphones.

The magic arm employs a knurled thumbscrew for tool-free adjustments, and an additional securing hole allows for further tightening with an Allen wrench. A key innovation is the anti-rotation design at the joint between the crab-shaped clamp and the magic arm, effectively preventing loosening or detachment.

The opposite end securely grips tubes, tables, tripod legs, or stabilizer handheld rings with diameters ranging from 15 to 40 mm (0.6 to 1.6in) and features built-in pads for enhanced stability and protection.

Constructed from CNC-machined aerospace-grade aluminum and stainless steel, this tool supports a maximum payload of up to 1.5kg (3.3lb), offering exceptional durability. For similar setups with compact gear, consider SmallRig's magic arm with crab-shaped clamp kits (ID 4454, 4766, 5624).

Safety Guidelines

1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.

Product Details

Easy to Use

- 1.Anti-twist design ensures stability during shooting.
- 2.Works with GoPro HERO, DJI OSMO, and Insta360 ACE action cameras via included action camera mount.
- 3.Constructed from aerospace-grade aluminum alloy and stainless steel for enhanced durability
- 4.Supports a maximum payload of 1.5kg (3.3lb).

Specifications

Product Dimensions: 188.0 x 85.6 x 23.3mm / 7.4 x 3.4 x 0.9in

Package Dimensions: 221.0 x 112.5 x 40.0mm / 8.7 x 4.4 x 1.6in

Net Weight: 380.0 \pm 5.0g / 13.4 \pm 0.2oz

Package Weight: 450.0 \pm 5.0g / 15.9 \pm 0.2oz

Material(s): Aluminum Alloy
