

SmallRig

Arca-Type Quick Release Mount Plate Kit

Operating Instruction

SmallRig Quick Release Clamp and Plate (Arca-type Compatible) 2280 is a dedicated kit designed for mirrorless and DSLR cameras. Attach the QR plate to SmallRig cage or camera tripod socket, drop it into the clamp and tighten the knob screw. There are multiple 1/4" -20, 3/8" -16 threaded holes and thorough holes on the bottom of the base plate so it can be attached to the tripods or other platforms.

Safety Guidelines

1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.
