

SmallRig

SSD Clamp (for Blackmagic
Pocket Cinema Camera 4K 6K
Z CAM Cages with Samsung T5)

Operating Instruction

SmallRig Mount for Samsung T5 SSD 2245 is a dedicated mounting solution working with SmallRig Cage for BMPCC 4K 2203. It is fixed to the top left corner of the cage by two M4 screws. Two M5 knob screws are designed to lock the T5 SSD and its USB-C cable, which is very user-friendly. In addition, this mount does not interfere with SmallRig handles attached on the top.

Safety Guidelines

1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.

In the Box

Product Details

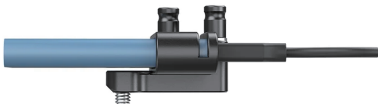

Compatibility

Samsung T5 SSD

NOTE:

1. This is the NEW VERSION 2245B but can still work with the OLD VERSION cage 2203, CVB2254 and CVB2255. Please bolt it to the suggested place as shown in the picture using two 1/4"-20 screws, which won't interfere with other accessories attached.

2. If you need the OLD VERSION products, please check SmallRig Samsung T5 SSD Mount for Select BMPCC 6K/4K and Z CAM E2 Cages (Old Version) 2245.

3. If you are using other SSD, SmallRig Universal Holder for External SSD BSH2343 is available.
