

SmallRig

Bowens Mount Adapter Part

Operating Instruction

- Excellent load-bearing performance: Supports mounting the D85 parabolic softbox and RA-F150 Fresnel lens, with a maximum load capacity of approximately 1.5kg.
- Compatible with standard Bowens Mount accessories: Compatible with the majority of standard Bowens Mount modifier available on the market.
- Horizontal/vertical adjustment: After attaching to the light stand, it allows for a 360° horizontal adjustment of the light body and accessory, as well as a 180° vertical adjustment.

Safety Guidelines

1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.
