

# SmallRig

**Mounting Support Kit with 14-20 Screw  
for Camera Hot Shoe (2pcs)**

Operating Instruction

SmallRig 1/4" Camera Hot shoe Mount with Additional 1/4" Screw (2pcs Pack) 2059 is exclusively designed for Canon, Nikon, Olympus, Penta\*, Panasonic, Fujifilm & Kodak.

It includes a swiveling ball-head, a hot shoe adapter, a 1/4" screw and a wingnut. The cold shoe adapter could attach the camera tightly via a cold shoe, while the 1/4" screw could be mounted on the monitor in adjustable directions in different scenarios and could be locked via a wingnut. In addition, the 1/4" screw could be mounted on a shoulder rig with 1/4" threaded hole for shooting as per your needs. It features in its small size, light weight and durability.

## Safety Guidelines

### 1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

### 2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

### 3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

### 4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

### 5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.
