

SmallRig

Sling Handle for DJI RS 3 Mini / RS 4 Mini

Operating Instruction

SmallRig Sling Handle for DJI RS 3 Mini / RS 4 Mini 4197B is designed to reduce arm fatigue during low-angle shooting and offer plentiful accessory mounting options. Mounting it onto RS 3 Mini / RS 4 Mini would not shift the center gravity. The compact handgrip weighs only 198g but can bear as much as 6kg. It quickly locks the gimbal via a NATO clamp, which features an anti-drop button to ensure safety. Built-in 1/4"-20 threads and two cold shoe mounts on top and side support Monitor Mount 2905B, sound receiver, image transmission system. The rig can also tilt 180° via a ratchet knob for easy storage. Overall, the delicate and compact handgrip works perfectly with the gimbal.

Safety Guidelines

1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.

Product Details

Easy to Use

Designed for DJI RS 3 Mini / RS 4 Mini , no shift of center of gravity;

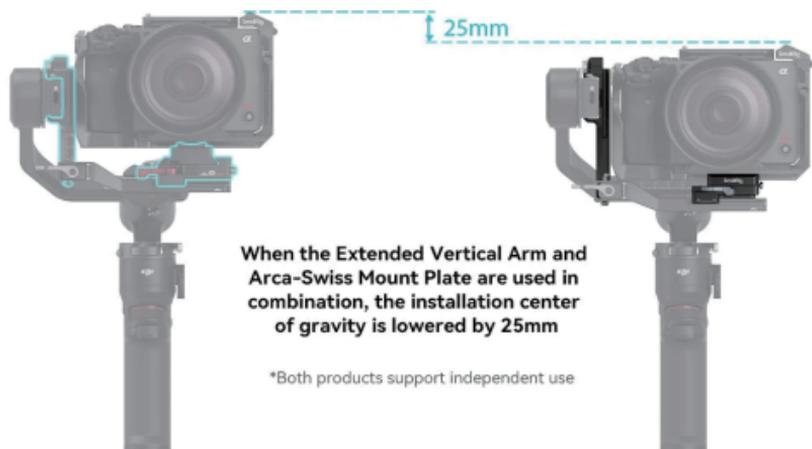

Compact, weighs only 198g, easy to carry around;

Multiple mounting points: 1/4 threaded holes and cold shoe mounts;

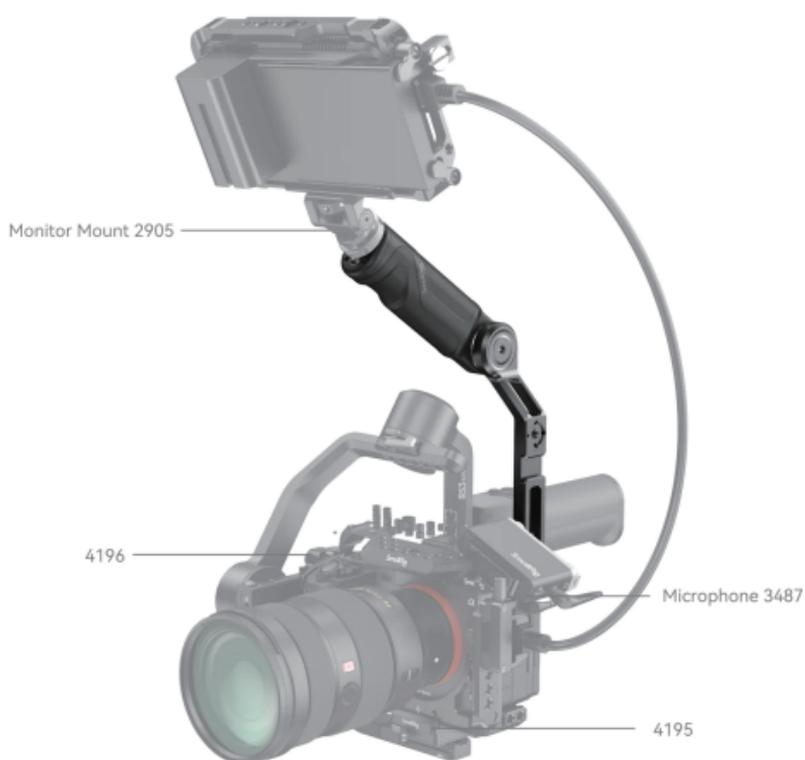

Angle adjustable: tilts 0-180 degrees via a ratchet knob, easily folded for storage.

Maintain the Center of Gravity Make Your Shooting Easier

When the Extended Vertical Arm and Arca-Swiss Mount Plate are used in combination, the installation center of gravity is lowered by 25mm

*Both products support independent use

Specifications

Weight at only 220g, 6kg load capacity

Product Dimensions: 7.2 × 2.2 × 1.6in / 183.5 × 56.7 × 40.0mm

Package Dimensions: 8.7 × 4.5 × 1.6in / 220.0 × 113.5 × 41.0mm

Product Weight: 6.9 ± 0.2oz / 198.0 ± 5.0g

Package Weight: 252.0 ± 5.0g

Material(s): Aluminum Alloy, Plastic
