

SmallRig

Vlog Kit VK-20

Operating Instruction

SmallRig Vlog Tripod Kit VK-20 II 4364 is composed of a tabletop telescoping tripod and a smartphone holder. This compact and portable kit has an impressive load-bearing capacity of 1.5kg / 3.3lb. One 1/4"-20 screw attaches the tripod to the smartphone holder which has dual cold shoe mounts for a microphone, LED video light, etc. The holder features a unique easy-to-retract design for swift smartphone attachment and removal. The 360-degree grip rotation allows a secure and quick switch between portrait and landscape orientations, while dual cold shoe mounts allow for the attachment of compatible accessories.

Safety Guidelines

1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.

In the Box

Vlog Tripod VT-10	× 1	Guarantee Card	× 1
Easy Loading Smartphone Holder with Dual Cold Shoe Mounts			× 1
