

Arca-Type Quick Release Mount Plate

SmallRig NATO Top Handle (Lite) 3766 is designed to facilitate low-angle shot and reduce burdens on arms. The ergonomic handle, featuring anti-slip and anti-freeze silicone, feels comfortable and weighs only 124g because of a hollowed-out structure. It has 3 front cold shoes and 2 rear cold shoes that allow simultaneously mounting microphone, LED light, monitor, and other accessories. ARRI 3/8" -16 locating holes support Monitor Mount 2903, 2348 to attach monitors; 1/4" -20 threaded holes support Magic Arm 2070 for monitors and Remote Control 2924 for recording. Its quick-release NATO clamp fits all standard NATO rail.

Safety Guidelines

1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.

In the Box

Quick Release Clamp	× 1	1/4" -20 Screw	× 4
3/8" -16 Screw	× 1	Guarantee Card	× 1
Hex Spanner	× 2		

Product Details

Product selling point

- 1.Arca-type compatible
- 2.Multiple 1/4"-20, 3/8"-16 threaded holes and thorough mounting holes
- 3.Lever-type base for quick release

Specifications

Product Dimensions: 72 x 70 x 14mm

Net Weight: 135g

Package Weight: 162g

Materials: Aluminum Alloy

*Please note the import tax may occur.
